

## CHECK THIS!

As a young man in Dominica you so different.

You don't promote the typical male role. You know as man we are taught to be on the streets, learn a skill, control our women and take our place as the head of the house. We like the protectors!

Partner you say you
thinking gender. But
what is gender? Man
and Woman? Male and
Female?

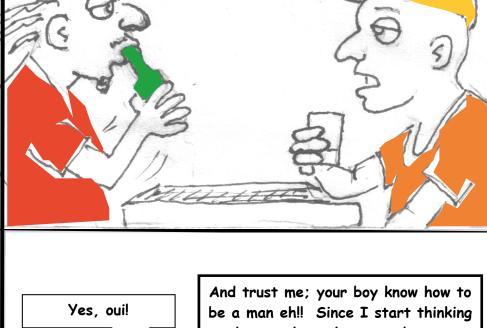

No man! Man and Women is a person's sex. You are either born with
a penis or a vagina. Gender really
says what it is to be a man or
woman in society; so listen to me
and THINK GENDER too!!!

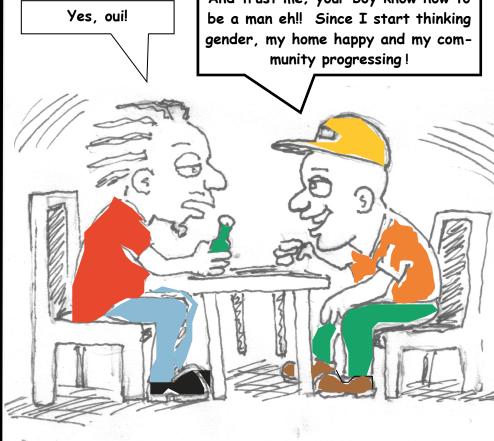

Well man, you see I am thinking gender.

When you think gender you know your role not the role that the community or home give you. I cook, clean, wash and take care of the children; and this also helps in my overall development.

Once I can look after the home,
I can organize anything.

## THINKING GENDER MAKES A DIFFERENCE!!!

A Product of Bureau of Gender Affairs; funded by the UNFPA and the Government of the Commonwealth of Dominica
